Kate E Curtis et conj et al to L H CHH 1

Q. C. DEED

J McLean et ux to D White Biebee prop 10

BILL OF SALE

Jas Butler et ux to J Salo Jiggerville prop 1050

Sulphur Spring Valley Notes

Teams from the Leadville Stables are employed this week hauling machinery for the C & A company, from the mine to the cars, for shipment.

Matthew Kries and John Campbell have secured a lease on the Mary mine of the Great Western Copper company and are this week fitting up to take out ore from the 200 foot level. A gasoline hoist, used heretofore by the Leadville company, has been set up to do the work of bringing the ore to the surface.

A series of protracted meetings are being held at the Ash Creek School house, under the direction of Rev Babor of Los Angeles, the meetings having begun last Wednesday evening.

Mrs M F Roper and daughter, Mrs L Wright, were to Courtland Tuesday in company with Mr and Mrs H B Tucker and F A Stevens, who were witnesses for Mrs Roper in making her commutation proof on her home- stead.

Word was received this week from Weese Brothers, that they now have ten storks, on their skunk farm, that are ready for the market, to be kept as pets. These are the same animal that are given so much room when one meets them as has no means of killing them, but the objectionable feature has been eliminated, and in this shape, they are really desirable as pets, being an animal of naturally very cleanly habits.

Phoenix Will Have Hospital Corps

With the completion of the new armory, Phoenix will also have the first attachment of hospital corps in the state. Several Arizona cities have been trying to obtain the hospital corps for three years.

There will be about eight or ten men in the corps which will be in charge of Fred Freedman, who was recently appointed hospital steward for the National Guard of Arizona by Adjutant General Charles W Harris and Lieut R D LaGarde.

Freedman will instruct the men in the first aid to the injured, the stretcher drill, and other matters in connection with the hospital corps. He was a trained nurse in the Massachusetts general hospital for five years and is now connected with the St Joseph Sisters hospital.

Poor Deluded Victim

By H. A. M.
Oh neighbor, oh neighbor, why having such fun?
Why? I've been and "blowed" my good two-bits!

And where, and for what did you "blow" it all in?
To see Ma Ruggles and her model mine at Schieffelin.

And were they not model, and was it not fun?
Yes surely, Oh certainly
But my sides are sore, I can never dine.

For I've laughed and laughed
'Till my sides split in twain,
And my hands so blistered with clapping,
I'm near set wild with pain.

But I'd go again and "blow" my two-bits
Even if it gave me twice thirty of six.

FOR SALE

Land scrip which will obtain patent to any government land subject to homestead entry without any residence or improvements. Fully guaranteed. For price and further particulars, address:
L W HUMPHREY & SON,
Springfield, Missouri.

From Monday's Daily.

The Tombstone public schools will close for the Christmas holidays on Wednesday December 24th, and will open again Monday January 5th of the New Year, giving about a week's vacation.

Notice is called to the Christmas advertisements on page four of this issue. These advertisements represent our local merchants. Look them over and do your Christmas shopping early. The time is getting short.

Jas Dalgleish was an outgoing passenger this afternoon for Biebee where he will remain a few days on business.

Mr A H Gardner, [manager of the Huachuca Water Co., left yesterday for Huachuca to supervise the repairing of the company's telephone line in that section.

Mr Holderess, father of Miss Mary Holderess one of the teachers of the local schools, left today for his home at San Diego, Cal., after a pleasant three weeks' visit in the only Tombstone.

"Pat" Trotter a familiar figure on the streets of Tombstone, was sent to the county hospital at Douglas today he having been ailing for the past month with complicated diseases.

Gigantic Arizona Power Enterprize

The commercial practicability of furnishing cheap power to all Arizona from a dam in the Grand Canyon of the Colorado will be known in four months to Col. Epes Randolph, associated with Ralph H Cameron, who has held rights for years. Eugene S Ives of Tucson also has an interest in the project, says the Citizen.

Col. Randolph has engineers now at work to show clearly, as it must be shown, whether or not it is worth while for capital to make the great adventure. He said Saturday that he would be ready in four months, perhaps less, either to go ahead with the project or to drop it.

In the meantime, Cameron furnished the rights he has held almost since he a boy near the famous El Tovar hotel on the Hermit Rim road. Col. Randolph furnishes the engineering and judgment and Ives the legal skill necessary to steer so gigantic an undertaking.

"It is my guess that it can be done and done profitably," said Col. Randolph Saturday. "I am in a position by reason of my engineering knowledge to make a better guess than the majority of people, but still it is only a guess and we must know."

"The plan is to develop a very large amount of energy and sell it to the public service corporations at a very much larger figure than they are able to make it themselves, and in addition to sell to landowners throughout the state, not now using power, at a price at which they can afford to pump water and to cultivate profitable lands which are now desert."

The character of the men interested is guarantee that the proposal to build a dam in the mightiest of chasms is at least being seriously considered.

Col. Epes Randolph is president of the Southern Pacific of Mexico and of the Arizona Eastern. Ives is acknowledged to be one of the shrewdest and most capable lawyers in the state. Cameron was territorial representative in congress for Arizona.

Hung Jury In White Slave Case

Worse than boxing matches in Phoenix is the result of a jury on a black white slave case in federal court. With one man out of the dozen holding out for acquittal, the jury in the Otto Williams case before Judge Sawtelle was hung higher than any personations could reach and when his honor saw the twelve were going to remain off the track indefinitely, he discharged them and ordered a new trial.

The federal calendar has been cleared now. In the Saturday session the docket was wiped clean of the passed and dismissed cases and the civil calendar called in the presence of over a dozen prominent attorneys who have cases coming up.

WANTED—Experienced teacher formerly of Mulholland School, San Antonio, Texas, desires position as governess; good health; good credentials. P O Box 555, Del Rio, Texas

Water Users Ass'n Warn Homesteaders

A warning was issued Saturday from the Water Users Association after the receipt of a wire from Carl Hayden, assuring the homesteaders of the Salt River valley that the department would take no action in the farm unit matter until after the secretary had visited Phoenix this winter. It is to prevent the unscrupulous taking advantage of the state of disorganization among the holders of public lands that the provision is made, trying to reap a harvest on the relinquished and assigned land, not giving the homesteaders time to see whether or not their efforts to get the order withdrawn will be successful.

Conference in Washington between Hayden, Ashurst, Smith and Secretary Lane of the department of the interior have brought about a temporary recommendation of the order cutting down the amount of public land one man can hold under this project. Until the secretary can come to Phoenix, which will be about the first of the year, the department will take no action. This is assured in Mr Hayden's wire to the association.

Will Take Prisoners to Federal Pen

A Phoenix dispatch says:—United States Marshal C A Overlock and seven guards will leave this evening in a special car with eighteen prisoners for Atlanta, Ga., where the convicted ones will serve sentences ranging from one year and one day to twenty years each, aggregating a total of twenty three years and thirteen days. The crimes for which the prisoners have been convicted are of seven different classes and convictions were all secured during the present term of court.

Demonstration Train Arrives at McNeal

The agricultural demonstration train that is now touring southern Arizona, arranged for by the University of Arizona Agricultural Experiment Station, co-operating with the El Paso & Southwestern railroad, will arrive at McNeal today. This train brings to the door of everyone interested in agricultural development a summary profitable farming and how it may be accomplished. The scope of the demonstration includes the interests of all Arizona. Every speaker is a specialist in his line and his work will aid you in your daily operations, says the circulars sent out in advance of the train.

In the train are a variety of agricultural products displayed, also several milk cows and other stock raised in Arizona.

This demonstration car will go from Douglas to Hereford Thursday morning and the next day it will be at Apache, near the western border of Cochise county.

Prof Fillmore, who is in charge of the Sulphur Springs valley farm at Cochise, was at Hereford yesterday and Saturday arranging for the arrival of the demonstration car in that town.

Federals Active In Chihuahua

A Juarez dispatch says:—While the rebel headquarters at Juarez were sending urgent messages Tuesday to General Villa, the rebel commander at Chihuahua, telling him that he is incurring the displeasure of foreign countries in his actions towards the Spaniards and other foreigners, and asking him to modify his attitude, Villa was said to be seriously concerned over the renewed federal activities. Reports were received that the federals are advancing toward Chihuahua from Torreon, two hundred miles south. Villa has had to counter his forces in sending troops to surround the federals at Ojinaga on the border, while garrisoning Juarez and Chihuahua.

This is said, will offer the federals an opportunity to strike Chihuahua, which was evacuated by them when Villa had all his forces together. Federal troops are also reported on their way from Monterrey with a view of strengthening the position of the Huerta government in the interior.

From Tuesday's Daily

Thos Kersney is a visitor in the city today from Fairbank on business matters, having come up this morning.

County Attorney Gilmore and Attorney O Gibson made a trip to Pearce yesterday on legal matters, returning home in the afternoon.

Miss Ella Sanders returned home last evening from a two weeks' visit in Tucson with relatives and friends.

The many friends of Rev H A Deck will be pleased to know that he will be at the Congregating church Wednesday night at 7:30 o'clock. He will be accompanied by Miss Woodberry, who is the superintendent of the Woman's Department of the Home Missionary Society. Miss Woodberry and Rev Deck will both address the meeting and the public is invited to attend.

We wish to correct a statement which appeared in a recent issue, and which reported the illness of Mrs R B Jenkins as due to blood poisoning. We now learn, however, that it was a severe attack of biliousness with which Mrs Jenkins was confined to her bed, and her many friends will be pleased to note that she is rapidly recovering and will soon be able to return to her duties as teacher of the 3rd and 4th grades. Miss Elizabeth Artell is substituting at the Primary schools, in the absence of Mrs Jenkins.

Looking Over Tombstone Mines

It was rumored some time last April when General Manager Walter Douglas and Dr Gripe were looking over the district, that the Phelps-Dodge contemplated making a further and more thorough and practical examination of the T C M Company holdings.

Dr Gripe, geologist, Capt J P Hodgson, general superintendent of the Copper Queen Mines, and A Natman a prominent mining man and official of the Copper Queen company, are now here for the express purpose of sining up the camp and to make a thorough and practical examination.

In their present examination they are being assisted by Col A L Grow, trustee for the T C M Company, who is being highly commended for his success as trustee, being thoroughly acquainted with the whole situation. Accompanying the experts throughout their research are two of our local mining men, Douglas Gray and Bert Macias, who are well acquainted with the workings.

No doubt it will require some time before the Copper Queen people decide positively what they will do, but if they should take over the T C M Co holdings, this in itself will mean resumption of operations on a large and successful scale. There will be no dreams and wild speculations about this deal if it once gets started. It will mean a large cyanide mill in the camp, and hundreds of tons of high grade ore for the Douglas smelter.

This will give employment to a large number of miners, and surely Tombstone will again see banner days should this big company decide to take hold of the mining interests of this camp.

The Phelps-Dodge company own the railroad into this camp, besides being large owners and creditors of the T C M Co.

Douglas Will Employ Own Assessor

The city of Douglas will employ its own assessor, despite the provision of the state law which provides that the county assessor may be called upon to furnish duplicate lists of the city assessment to the city tax collector at the rate of 5 cents per folio of 100 words. While the matter was discussed at some length and the appointment of an assessor was talked of, it was decided to leave the appointment in abeyance until the first meeting in January. Edward Gieson was present and stated the figure at which he would do the work but no action was taken. A letter from County Assessor E A Hughes, in which he stated that it would be practically impossible for him to furnish the rolls this year was read. The city clerk was therefore instructed, upon motion of Hiatt to call for bids for assessing, same to be opened at the first meeting in January.—Dispatch.

From Wednesday's Daily

Deputy Sheriff Charles, of Douglas, yesterday brought over with him three prisoners for lodgement in the county jail. They were Ynocento Soto, charged with attempt to commit murder, William Brophy, charged with robbery from the person and Trinidad Luna, who will serve a 90 day term for vagrancy.

The Prospector is in receipt of the Anniversary Number of the Morning Sun (Yum.) which is well gotten-up and will go far toward the boosting of the town of Yuma as well as the county of that name in the southern part of Arizona. The publication is well worthy of praise and the liberal support it has received.

F C Schaffer and E W Schaffer are visitors in the city today on business matters from Bowie. They came over land in their Overland auto. And on account of the recent heavy rains they were stuck in the mud several times but finally pulled through all right, and arrived here this morning.

Court Reporter J W Walker and wife accompanied by Superior Judge A C Lockwood, Secretary of the Cochise Taxpayers Association, J N Gains and A Westworth returned home today from Douglas where they have been for the past few days, having made the trip in Mr Walker's car.

Bids Opened on Industrial School Supplies

To open bids for 200 lockers Charles R O-Burn, secretary and citizen member of the Board of Control, left Friday for the State industrial school at Ft. Grant.

At the meeting of the board Thursday, several important matters were taken up. Among these was the recommendation that Stella Robles be discharged from the school.

The bid of the Beckman company of
